ECLECTIC ELEMENTS

If home is to a designer what a blank canvas is to an artist, how do you get from that canvas — or house — to a Mona Lisa? Hip, modern Eclectic Elements, a furniture store on Coral Way in Miami, can stylishly guide the way.

Owner **Monica Suleski-Tomayo** describes a house as plain and somewhat uninteresting to begin with, but with the addition of furniture or artwork, you can create an absolute beauty.

"Furniture can make or break a house. It's all about the finished product." At Eclectic Elements, Suleski-Tomayo sells a whole look. "If I'm going to do it, I'm going to do it all right."

Eclectic Elements is a direct importer of furniture, lighting and home accessories available for sale as well as production rentals. Clients includes to top designers, architects, production companies and her niche market, cosmopolitan professionals.

And thanks to the ever-growing new developments and condo conversions in South Florida, Monica and her team have had the opportunity to furnish sales centers as well as model units.

Personalized, precise and timely service is what sets Eclectic Elements apart from other furniture stores in the area. Monica and her fun, energetic staff create rooms and even furnish entire homes — sometimes with as little as 24 hours' notice. They can also accommodate any style or budget.

The satisfaction of her clientele is Monica's top priority, as much of Eclectic Elements' success comes from word of mouth. "If clients' places don't look good, I don't look good," she says.

She also believes that a person's room or home is an expression of the person and should match their personality. "Your home is your peace. I love my home. I feel good in my own space." Suleski-Tomayo aspires to create spaces like these for her clients.

Check out their showroom and see how many ways you can express yourself in your home ... and transform your living space from a blank canvas to masterpiece!
